**EUROPEAN COUNCIL MEETING.
BRUSSELS, 15 AND 16 OCTOBER 2008.
PRESIDENCY CONCLUSIONS.**

ECONOMIC AND FINANCIAL SITUATION

1. Faced with the financial crisis, the European Council affirms that it is determined to take coordinated and thorough action to restore the smooth running of the financial system, thus ensuring the normal and effective financing of the economy and returning to the path towards growth and employment.
2. The European Council welcomes the measures taken by the European Central Bank and by the relevant national central banks since the beginning of the financial crisis, and the fact that they have coordinated their efforts well with the central banks of partner countries. The liquidity of the financial system will be ensured by all the authorities so as to maintain confidence and stability.
3.
4. The European Council reaffirms its commitment that in all circumstances the necessary measures will be taken to preserve the stability of the financial system, to support the major financial institutions, to avoid bankruptcies and to protect savers' deposits. Inter alia, such measures aim, in conjunction with the central banks and supervisory authorities, to ensure sufficient liquidity for financial institutions, to facilitate their funding, and to provide them with capital resources so that they can continue to finance the economy properly. The European Council considers that measures to support financial institutions in difficulty should go hand in hand with measures to protect taxpayers, to secure accountability on the part of executives and shareholders and to protect the legitimate interests of other market players.

5. In the current exceptional circumstances, European rules must continue to be implemented in a way that meets the need for speedy and flexible action. The European Council supports the Commission's implementation, in this spirit, of the rules on competition policy, particularly State aids, while continuing to apply the principles of the single market and the system of State aids.
6.
7. Maintaining confidence in the financial and banking system and protecting the interests of depositors and investors also requires rigorous implementation by financial institutions of recommendations on the transparency of their commitments and risks.
8.
9.
10. Beyond the financial sector, the European Council underlines its determination to take the necessary steps to support growth and employment. It invites the Commission to make appropriate proposals by the end of the year, in particular to preserve the international competitiveness of European industry. The European Council emphasises that continued structural reform is more important than ever, to help restore growth and improve employment in Europe. Support for economic activity involves an adequate level of finance. The European Council welcomes the European Investment Bank's decision to mobilise EUR 30 billion to support European SMEs and its commitment to step up its ability to intervene in infrastructure projects. It calls on the EIB to assume a greater share of risk in the financing of SMEs.
11. Budget policies must continue to be in line with the revised Stability and Growth Pact, which should also be applied in a manner which

Agencia Tributaria

TRIBUNAL PRUEBAS SELECTIVAS
AL CUERPO SUPERIOR DE INSPECTORES
DE HACIENDA DEL ESTADO

reflects the current exceptional circumstances, as provided for in its rules.

12.

13. The European Council expresses its solidarity with the efforts made by Iceland, a country which is closely integrated into the EU Single Market through the EEA Agreement and which requires the support of the international community; it expects Iceland to honour its international commitments.

14. The European Council took note of a report drawn up by the Presidency, in cooperation with the Commission, on oil price volatility. It calls on the Council to press ahead with its discussions on this issue and, in the immediate future, requests the Commission to take the necessary action to promote the transparency of commercial oil stocks, as well as energy efficiency in conjunction with the European Investment Bank in particular.

TREATY OF LISBON

15.

ENERGY AND CLIMATE CHANGE

16. The European Council confirms its determination to honour the ambitious commitments on climate and energy policy which it approved in March 2007 and March 2008. In this connection, it requests the Presidency and the Commission to organise intensive work over the next few weeks in order to enable the European Council in December 2008 to decide on appropriate responses to the challenge of applying that package in a rigorously established cost-effective manner to all sectors of the

AL CUERPO SUPERIOR DE INSPECTORES
DE HACIENDA DEL ESTADO

European economy and all Member States, having regard to each Member State's specific situation.

ENERGY SECURITY

17. Security of energy supply is a priority for the European Union. It involves the responsibility and solidarity of all the Member States. To this end, taking account of the report submitted by the Presidency, the European Council has decided to step up the work in progress, by adopting the following guidelines and requesting the Commission to submit relevant proposals or initiatives, where necessary, to:

(a) finalise the legislative package on the internal market in electricity and gas before the end of the legislative period;

(b) expedite the implementation of the European Energy Efficiency Action Plan and the Strategic Energy Technology Plan;

(c) pursue with determination the diversification of energy sources, to which the measures in the energy/climate package contribute directly;

(d) promote improvement in the working of the market, in particular through greater transparency on flows and stockpiles and through sharing information on long-term requirements and resources;

(e) develop crisis mechanisms to deal with temporary disruptions to supplies;

EUROPEAN PACT ON IMMIGRATION AND ASYLUM

19. The European Council adopted the European Pact on Immigration and Asylum, which expresses the commitment of the European Union and its Member States to conduct a fair, effective and consistent policy for dealing with the challenges and opportunities which migration represents. The Pact will henceforth form the basis, for the Union and its Member States, of a common immigration and asylum policy, guided by a spirit of solidarity between Member States and cooperation with third countries. This common policy must be founded on proper management of migratory flows, in the interests not only of the host countries but also of the countries of origin and of the migrants themselves.

20. The fundamental principles set out in the Pact are reflected in a series of measures which will have to be implemented immediately at both EU and national level. Moreover, these principles will also inform the future work programme of the European Union, which will be proposed by the Commission in May 2009 with a view to finalisation under the Swedish Presidency. Implementation of the Pact will be the subject of an annual debate starting with the European Council in June 2010.
